connectivity for real-time
vibration monitoring via
the myMirka app

LED RPM indicators
(4,000-10,000 RPM) for
precise and optimal control

The next generation **Mirka Deros II 650CV**—a compact, powerful 150 mm electric random orbital sander designed to handle the toughest jobs with ease. Equipped with a 5.0 mm oscillation, this sander perfectly balances stock removal and a smooth surface finish, making it ideal for general-purpose sanding on any surface.

The Deros II is lightweight and engineered with low noise levels, minimal vibration, and a unique symmetrical design, allowing you to operate comfortably for long periods of time without fatigue.

- ✓ Enables efficient dust-free sanding.
- ✓ Compact, ergonomic and easy-to-use.
- ✓ High-efficiency and long-life brushless motor.
- ✓ Can effortlessly tackle demanding jobs and heavy applications.
- ✓ High operator comfort can be used for long periods without fatigue.
