

Mirka's polishing compounds are designed to quickly and permanently remove sanding scratches from surfaces, for a perfect shine and finish. Mirka offers many types of compounds to suit many substrates and scratch levels. Mirka's polishing compounds are silicone free, giving a better finishing result.

Below is a brief overview of all the polishing compounds. Below is Mirka's polishing guide to help you to select the right compound for your project. You can select a polishing compound based on what level of sanding scratches need to be removed.

POLARSHINE 45

250ML: 7994502511
1 LITRE: 7994510111

P600

- ✓ Coarse, fast cutting
- ✓ Perfect deep gloss finish
- ✓ Removes sanding scratches from P600 and finer
- ✓ Designed for hard surfaces and coatings, especially within the marine sector
- ✓ Used in both production and restoration processes
- ✓ Ideal for one-step polishing of white and light-coloured gel coat surfaces
- ✓ For darker colours, a second step with Polarshine 10 to remove swirl marks is advised

POLARSHINE 35

250ML: 7992800251
1 LITRE: 7992810111

P800

- ✓ Coarse, for demanding industrial and Marine applications
- ✓ Suitable for gel coats, high gloss lacquers and composites
- ✓ Fast and efficient, producing a high surface gloss
- ✓ Minimizes the sanding steps
- ✓ Has special emulsifying properties, which reduce the risk of drying out or overheating the surface
- ✓ The viscosity reduces splashing and is easy to use

POLARSHINE 15

250ML: 7994002511
1 LITRE: 7994015111

P1500

- ✓ Efficiently produces a premium surface finish on both freshly applied and established paintwork
- ✓ Rather than cover up scratches, Polarshine 15 actually polishes them out before your eyes to leave a first class gleam
- ✓ Cost effective, safe, easy to use
- ✓ Clean up is quicker and simpler thanks to the low splash, silicone-free compound
- ✓ Designed to be used for machine applications

POLARSHINE 12

1 LITRE: 7991210111

P2000

- ✓ A waterbased, silicone free one-step compound
- ✓ Removes scratches from P2000 or finer (depending on the surface and polishing pad)
- ✓ Perfect balance of haze and hologram versus speed of cut

POLARSHINE 12 - BLACK

1 LITRE: 7991210111B

P2000

- ✓ A waterbased, silicone free one-step compound
- ✓ Designed to quickly and permanently remove sanding scratches on industrial paints from P2000 and finer, leaving a hologram-free deep gloss finish
- ✓ Specifically developed for dark surfaces and composites
- ✓ Ideal for gel coat, high gloss lacquers and exposed carbon fibre

POLARSHINE 10

250ML: 7995002511
1 LITRE: 7995010111

P1500

- ✓ Medium coarse silicone free polishing compound
- ✓ Suitable for all paint systems and for polishing of scratch-resistant clear coats
- ✓ Designed to keep the surface temperature low when polishing and it removes marks permanently
- ✓ Can be applied both by machine and by hand

POLARSHINE 5

250ML: 7990502511
1 LITRE: 7990500111

FINE

- ✓ Superior high gloss finish on various paints and lacquers
- ✓ Water-based
- ✓ Removes swirl marks on paints and clear coats, leaving a high gloss finish
- ✓ Suitable for blending of old and new paint work
- ✓ Suited as a last step in the polishing process after Polarshine 15, 12 and 10 in order to achieve a higher gloss level

POLARSHINE 3 NANO ANTISTATIC WAX

250ML: 7992602511
1 LITRE: 7992660311

FINE

- ✓ Ultra-fine polishing compound, suitable for protecting the achieved high gloss finish on both original paintwork and repainted surfaces
- ✓ For buffing and sealing of surfaces and hologram removal
- ✓ Leaves a long lasting high gloss shine
- ✓ Ideal for demanding colors
- ✓ Contains carnauba wax
- ✓ Suitable for both machine and hand application

POLARSHINE LIQUID NANO WAX

1 LITRE: 7992725111

FINE

- ✓ An ultra-fine polishing compound
- ✓ Suitable for protecting the achieved high gloss finish on original paintwork and repainted surfaces
- ✓ For buffing and sealing of surfaces and for hologram removal
- ✓ Leaves a long lasting high gloss shine, ideal for demanding colours
- ✓ Contains carnauba wax
- ✓ Suitable for both machine and hand application

POLARSHINE E3 GLASS POLISHING COMPOUND

250ML: 7990302511 1 LITRE: 7990310111

Designed for polishing out scratches on glass surfaces. It can be used on standard window glass as well as on hardened glass. Polarshine E3 removes marks permanently and is suitable for most glass types. Silicone-free. Ideal for use with the felt polishing pads.

Tips before usage
