

Goldflex Soft

Perforated Roll

Flexible Sanding

Goldflex Soft is the ideal choice for sanding profiled surfaces and hard-to-reach details, offering superior flexibility and control.

Designed for professionals in the automotive and car repair industry, its soft foam backing ensures even pressure distribution, reducing the risk of over-sanding.

Whether dry or wet, this sanding sheet provides optimal results without clogging, thanks to its special stearate coating.

- ✓ Suitable for both dry and wet sanding
- ✓ Ideal for profiled and difficult-to-reach surfaces
- ✓ Stearate coating to prevent clogging
- ✓ Soft, flexible foam base for even pressure distribution
