# Ultimax Ligno

## Wood Sanding Revolution

Specifically designed for hardwood and softwood applications, Ultimax Ligno features an innovative hourglass abrasive pattern that ensures fast, even cutting while maintaining excellent durability and resistance to clogging.

Its latex impregnated paper offers flexibility and edge wear resistance, complemented by Mirka's Multifit hole pattern for efficient dust extraction. This not only keeps abrasive grains sharp but also reduces heat buildup during sanding, enhancing performance and prolonging disc life.

**MIRKA ULTIMAX LIGNO**  
150mm Grip Multifit

- ✓ **Health-Conscious Design:** Integrated dust channels and extraction holes maintain a clean workspace, enhancing abrasive performance and reducing heat buildup.
- ✓ **Versatile Application:** Designed for both hardwood and softwood, offering precision and efficiency in various woodworking projects.
- ✓ **Easy Attachment:** Hook and loop backing ensures quick and secure attachment to your sander, enhancing ease of use and productivity.

<b>Attachment Type</b>	Grip
<b>Backing Material</b>	Latex paper, D-paper / C-paper
<b>Bonding</b>	Low VOC resin system
<b>Coating</b>	Semi-open with Selective Coating®
<b>Diameter</b>	150 mm
<b>Form</b>	Discs
<b>Color</b>	Red
<b>Grain</b>	Ceramic/Aluminium oxide
<b>Hole Configuration</b>	Multi
